Our Wordbar Signage is designed to make change easy! We offer two styles of Wordbars, EZ Change and Rotating, which provide the same benefit of allowing multiple messages on a single sign.

The EZ Change Wordbar allows for multiple messages to be organized as individual stacking units. Each unit can be removed or replaced, regardless of size or placement on the sign, enabling for quick message changes.

The Rotating Wordbar offers the ability to have two separate messages, one on each side of a single unit. The Wordbar can then be rotated to switch between the two messages.

All signage is designed, manufactured and assembled in the USA.
